TANK CONTROL MODULE

Automatic off function to protect air operated pumps, triggered by analogue or discrete level sensors. Controls up to 4 tanks or drums. Signal power 24V DC. The Tank module can only be used in the PC based version.

TECHNICAL DATA	
Part No	53408
Voltage	230 V AC
Power consumption	0,8 A
Packaging LxWxH	0,36 x 0,28 x 0,09 m
Weight (Gross)	3,8 kg
H.S. Code	85389099
