

CASE STORY – VOLMAX NORWAY

EUROLUBE EQUIPMENT AB

2011-09

CASE STORY

Eurolube Equipment AB have delivered a complete solution for oil, grease, antifreeze, wind shield fluid and waste oil handling to one of the largest truck workshop in Norway, buyer is Volmax AS. Volmax AS is a leading dealer of Volvo trucks in Norway.

Eurolube's knowhow and solutions for fluid handling in work shops ensure a safe, clean and efficient service. We are very proud that we were chosen as a supplier to Volmax in collaboration with our partner Langø Service AS in Norway.

The fluids are monitored by the LUBE-Master system, total 95 dispensing points fully integrated to the Volvo DMS-system GDS. The system also monitors the tank levels in real time for all Oil and fluid tanks.
