STAINLESS STEEL PUMP WITH SUCTION TUBE 4:1 30 L/MIN FREE FLOW

Our stainless steel pumps are designed to dispense aggressive fluids, compatible with AISI 316, and PTFE. Example of fluids: Solvents, alcohols, detergents, sealants, inks, paint, glue, e.g. Do not use with flammable fluids.

TECHNICAL DATA

| | |
|----------------------|----------------------|
| Part No | 12745 |
| Ratio | 4:1 |
| Capacity | 30 l/min |
| Air connection | 1/4" (F) BSP |
| Maximum air pressure | 1,0 (10) MPa (bar) |
| Inlet | 1" (F) BSP |
| Outlet | 1" (F) BSP |
| Pump tube | Ø25, 54 L=670+220 mm |
| Seals | PTFE / Teflon® |
| Packaging LxWxH | 0,76 x 0,16 x 0,11 m |
| Weight (Gross) | 9,9 kg |
| H.S. Code | 84135069 |
