PRESSURE RELIEF KIT

Useful during high pressure greasing, causing the coupler to become difficult to remove from the grease fitting when done. Using the pressure relief kit enables a user to release the pressure before removing the coupler. Includes: 450mm outlet hose, hydraulic coupler, relief valve.

TECHNICAL DATA

Part No	26745
Length	450 mm
Packaging LxWxH	0,5 x 0,06 x 0,05 m
Weight (Gross)	0,2 kg
H.S. Code	40094200
