MOBILE GREASE PUMP WITH HOIST 12-20KG

Mobile unit designed for use with hard to pump, sticky and high viscosity greases up to NLGI3. A pneumatic piston elevates the pump for replacing an empty pail. The pneumatic piston also pushes down when the pump is in use.

It is ideal for situations where it is important to get all the grease out of the bucket. Applications include expensive grease where complete emptying is essential, dented buckets/drums that cause the follower lid to stick, and easy handling of the grease to avoid debris that can damage the pump or machine.

TECHNICAL DATA

Part No	26742
Ratio	60:1
Pump	25737
Packaging LxWxH	1,280 x 0,570 x 0,490 m
Weight (Gross)	52 kg
H.S. Code	84135069
