WEB APP KEYPAD FOR LUBE-MASTER

Enables increased flexibility, mobility and efficiency by initiating LUBE-Master dispenses from a web capable device such as a smartphone, tablet or computer web browser. Using the web app keypad enables a workshop to omit installing regular keypads and only use the own internal IT components, regardless of platform, to perform fluid dispensing operations using LUBE-Master.

TECHNICAL DATA

Part No	53432
H.S. Code	84716070

EUROLUBE EQUIPMENT
